Python-Learning-Notes

Useful step-by-step Python learning notes.

Summer 2020

Getting Started

1. Install Anaconda

2. Install Jupyter Notebook:

   Using conda/pip

   via Anaconda

3. Configure Jupyter Notebook

Reference Books

Here is a list of books I found extremely useful:

- Beginning Python: From Novice to Professional **Digital version available on NYU Library**

- Python Programming: An Introduction To Computer Science, Third Edition **Digital version available on NYU Library**
